# *A Word About The Holmes Collection*

We are all familiar with the expression "Collector's Luck." No doubt most collectors feel that they have experienced too little luck during their collecting careers. One reason is, of course, that the opportunities that come a man's way are frequently missed. We believe that the dispersal of the Holmes Collection of Foreign and United States coins provides an opportunity that the wise connoisseur will seize while he has the chance. We at Stack's have handled many interesting numismatic properties over the years and feel qualified to recognize the unusual when we see it. As the years roll by the true Numismatist seldom has the chance to buy from a collection formed over a long period of time. The Holmes Collection was begun at a time when really choice material was not difficult to find. The fact that it has at last been made available today should be regarded as an excellent example of Collector's Luck. The breathtaking quality and distinction of the coins are the hallmarks of the true "Old Time Collection." A decade and more ago such collections were not unknown on the market. Today they are rarer than the individual rarities that give them a unique distinction. We hope that you will recognize that here you are faced with an unusual opportunity. We also hope that you will not have cause to regret a missed chance to reinforce your own collection with some of the gems that you may not encounter again for years, and then only at greatly increased prices.

In considering the Holmes coins as a whole, we cannot help being impressed with the unusual variety of pieces available. The Foreign Gold alone exists in a quantity that would make an unusual Sale. There are over 1,500 pieces that reflect the numismatic and political history of the Ancient, Medieval and modern world. Roman Aureii and Byzantine Solidi are particularly well represented, while the smaller South American gold series, European hammered gold and later coins are very attractive. They will be sold in the First and Second Sessions held on Wednesday afternoon and evening, October 5th.

The Third Session on Thursday evening, October 6th, will feature Half Cents, Large Cents and Minor U. S. coins. Again the quality of these pieces is remarkable. This Session should provide a "field day" for the advanced collector who is interested in really superb early Large Cents. There are over 100 in Mint State alone dating from 1794. There are also 26 varieties of the 1794 and outstanding examples of the 1793 and 1799. Among the Half Cents will be found a 1793 in choice Uncirculated, and 15 more rare date Proof originals and restrikes of later dates. It was a pleasure for the cataloguer to handle these coins. The collector should find them of equal interest.

Dollars and Half Dollars will be offered in the Fourth Session on Friday afternoon, October 7th. In this series Mr. Holmes was particularly drawn to the early issues of the Republic. There are no less than 37 Dollars dated before 1803, two Gobrechts, the Liberty Seated Design in Proof and Uncirculated and many later dates remarkable for rarity and condition. Among the Half Dollars there is a 1794, a 1795 Three Leaf, and 8 other varieties of the 1795. The later specimens include many that are Uncirculated and Proof. Half Dimes, Dimes and Quarters appear in the Fifth Session held the same evening. There is an almost complete set of Half Dimes, including 4 varieties of 1794 and 14 varieties of the 1795. It has been years since we have encountered so many choice examples of this delightful small coin. Again, the condition has to be seen to be believed. The Dimes include two 1796, 2 varieties of 1797, the rare 1798 Small 8, and later dates in gem condition. Among the Quarters there is a 1796 in what can only be regarded as a Gem Proof. All those dated before 1839 are choice while the later dates include many in Uncirculated and Proof condition.

The Sixth Session on Saturday afternoon, October 6th, is devoted to Federal, Pioneer and Commemorative Gold coins. Among the Quarter Eagles there is a 1796 no Stars, an 1808, and ten others dated before 1834. The later pieces include the rare 1875 and a nice selection from Charlotte and Dahlonega. The Three Dollar pieces lack only 4 dates to be complete. The Five Dollar series includes 30 coins dated before 1818. There are also many from the Charlotte and Dahlonega Mints and nice examples of the scarce Philadelphia coins struck during the Civil War and after. Among the early Eagles you will find the 1795, 1804 and many more from 1796 to 1803. The Double Eagles include scarce and popular dates in choice condition. Pioneer gold is exceptionally well represented. The Commemorative Gold series is distinguished by the Panama Pacific coins, all to be sold individually.

In closing, we would like to point out again that "Collector's Luck" really consists in taking advantage of an opportunity when it presents itself!

## U. S. HALF CENTS

1283 **1793 G–2.** A superb example of the first Half Cent. Absolutely full **Mint State.** Sharply struck. Light olive and faded mint red. This coin should bring $600.00 or more. **PLATE**

1284 **1794 G–5.** Extremely Fine. Coal black color. Obverse showing suction marks of reverse. A small rough area on the reverse. Worth $100.00.

1285 **1795 G–3. Lettered edge, punctuated date.** Nearly Very Fine. A couple of reverse edge nicks. A nice Type coin.

1286 **1795 G–4. Plain edge, punctuated date.** Really a Very Fine coin but very weakly struck in the center obliterating the words "Half Cent." The obverse very strong.

1287 **1797 G–3. Plain edge.** Extremely Fine but some lightly eroded surface. Still a very Choice coin.

1288 **1800 G–1.** A superb Uncirculated coin. Fully a blazing mint red example and perhaps "one of the finest known." It is difficult to estimate the valne of this lot, but at $150.00 it would be a bargain. Better than the Dupont coin at $110.00. **PLATE**

1289 **1800 G–1a.** Entire date recut. About Uncirculated. Even black coloring.

1290 **1802 G–1. The three leaf reverse.** This coin is unquestionably one of the better known coins. Far superior to any one we've handled. Fully **Extremely Fine** with superb surfaces. "Half Cent" sharply struck, unusual for this date. **PLATE**

1312 **1810 G–1.** Uncirculated, faded mint red and light brown. A better strike than the Dupont coin at $70.00.

1313 **1811 G–1.** Strictly Very Fine and Rare. Nicer than the Dupont coin at $32.50 six years ago.

1314 1825 G–1. Uncirculated. Light olive.

1315 1825 G–2; 1826 G–1. Fine, 2 Pieces.

1316 1826 G–1. Red and iridescent. Uncirculated with proof surface. A Gem!

1317 1826 G–1. Another. Uncirculated. Chocolate brown with mint red around date and letters.

1318 1828 G–2. 13 Stars Variety. Brilliant Uncirculated. Mint red just starting to tone.

1319 1828 G–2. Another. Brilliant mint red. Uncirculated. The reverse has a couple of small spots. Still can be called a Gem.

1320 1828 G–3. The 12 Stars Variety. A very scarce type coin. Uncirculated. Light brown and mint red. Rare so choice. Easily worth $40.00.

1321 1829 G–1. Uncirculated. Faded mint red and iridescent hues.

1332 1835 G–2. Uncirculated. Iridescent and steel toning.

1333 **1836 G–1. First Restrike,** weight 78 grains. A superb, **Brilliant red proof.** Some light toning just starting. Struck a trifle off-center giving one side a fantastic wire edge. The Empire specimen realized $300.00. **PLATE**

1334 **1841 G–1. Original. Gem Iridescent Proof.** This and the following lot are very interesting because upon examination it can be seen that these coins were made on Reeded edge planchets. These planchets were struck on dies with a plain collar which flattened out the reeding. However, under a strong glass the reeding is still partially visible. This feature was brought to light for the first time just recently upon examination of an 1840 Half Cent. **PLATE**

1335 **1841 G–1. Original.** Another specimen. **Brilliant and bright red Proof.** Just the faintest trace of beginning iridescence.

1336 **1842 G–1. Original.** A slightly mis-handled **Proof.** This coin might have seen circulation for a very short time. One of the rarest "Original" Half Cents, worth $350.00. **PLATE**

1337 **1843 G–1. Original. A superb Gem Iridescent Proof.** Easily worth $300.00. **PLATE**

1338 **1843 G–1. Original. Another Iridescent Proof.** Another coin that might have seen circulation. Worth $150.00.

1339 **1844 G–1. Original. A Gem Iridescent Proof.** Every color of the rainbow is visible on this coin. Worth $300.00. **PLATE**

1340 **1846 G–2a. The Second Restrike.** Die scratches over "RICA." A superb red and iridescent **Gem Proof. PLATE**

1341 **1848 G–1. Original.** This coin was probably cleaned some time ago and is just starting to retone. Still a nice **Proof** with a mottled appearance. **PLATE**

1342 **1848 G–2. "First Restrike." Brilliant Red and Iridescent Proof.** A very choice coin. Worth $300.00.

1343 **1848 G–2. "First Restrike."** Another coin in exactly the same condition as the first.

1349 **1852 G–2. First Restrike. Reverse of 1856. Choice Iridescent and Red Proof.** Worth $275.00. **PLATE**

1350 **1852 G–2. First Restrike.** A Gem sea-green and iridescent **Proof.** From the C. A. Allenburger Collection.

1356 **1856** A beautiful **Proof** exactly like the previous lot. Also from J. G. Macallister. These coins probably were on a tray, hence their equal toning.

1357 1857 The last year of issue. Brilliant Uncirculated. Full mint red. Rare in this state of preservation.

## U. S. LARGE CENTS

1358 **1793 S–8.** EXTREMELY FINE–40. Wreath Cent, Triangular Bow reverse. Perfectly centered, needle sharp strike. Glittering, mirror-like surfaces. Faded, possibly simulated mint red, a few insignificant scratches on the obverse. Still a $400.00 Cent. **PLATE**

1359 **1793 S–9.** VERY FINE–30. Wreath Cent, Round Bow reverse. Glossy black, slightly porous surfaces, well struck and centered, full border beading. The EF–40 Sloss specimen brought $400.00.

1360 **1794 S–21. Hays 5.** EXTREMELY FINE–40. The Sans Milling obverse, but in this case over half the milling is present. Well toned lustrous chocolate, a few planchet striations and small handling marks. Easily a $100.00 Cent.

1361 **1794 S–22. Hays 43.** ABOUT UNCIRCULATED–55. Lot 58, Newcomb Sale, 1945, where it was described as "Uncirculated golden brown. Original color and surface, and a superb specimen. Pictured in Chapman." Our research also disclosed that this is the original W. W. Hays specimen, illustrated in the 1893 Frossard–Hays book on Varieties of U. S. Cents. The identification was readily established by a small nick on the hair over the ear and a tiny planchet rim defect between M and E. This Condition Census and heavily pedigreed Cent should double the recent auction record of $140.00 for a specimen in similar condition. **PLATE**

1362 **1794 S–22. Hays 43.** FINE–15. Another, from the perfect reverse die. Light brown, a nice cent for the grade. Worth $25.00.

1363 **1794 S–23. Hays 18.** VERY FINE–20. Lot 1644, Dr. French Collection. Light brown, the edges rather battered in places and filed down and smoothed over cap and LIB. Usual obverse die breaks. Rare, even in this condition, and well worth its book value of $80.00.

1364 **1794 S–24. Hays 17.** VERY FINE–35. Lot 921, Dr. French Collection. Medium brown, very sharp strike but lightly and uniformly pitted. Still a pretty Cent that should bring $75.00 or so.

1365 **1794 S–25. Hays 22.** VERY GOOD–8. The Separated Date. Dark brown, fairly sharp but corroded. Worth $15.00 thus.

1366 **1794 S–27. Hays 25.** VERY FINE–20. Well toned gray steel, many fine scratches in obverse field, a few small edge dents, some pitting and corrosion, mainly on reverse. Lot 42, Newcomb Sale. Quite rare, with a book value of $112.50, an amount which any die variety specialist should cheerfully disgorge for such a prize.

1367 **1794 S–30. Hays 37. Lot 54,** Newcomb Sale, described as "Uncirculated, lustrous golden brown and a gem cent. Pictured in Chapman." The golden brown has faded to medium but this lovely coin is still just as attractive and the finest of the variety offered in recent years. Should bring at least $300.00. **PLATE**

1368 **1794 S–31. Hays 39.** ABOUT UNCIRCULATED–50. Glossy natural brown, sharply and perfectly impressed. Ex Morgenthau Sale, 1937. A beautiful cent of the year, easily worth $150.00.

1369 **1794 S–33. Hays 27.** Lot 44, Newcomb Sale, described: "Very Fine, dark brown. One of the rarest varieties of the year and in very desirable condition. Pictured in Chapman." This is apparently one of the Fine–12 specimens in Dr. Sheldon's Condition Census, but it certainly rates more than that with us, despite several deep scratches at LIBERTY and some rather deft grinding down and burnishing of the obverse to minimize pitting. The reverse is magnificent– of full Very Fine–30 sharpness and spectacularly displaying the famous six "wheel spoke" die breaks. A Good–6, Hays 27, changed hands privately at $300.00 a year ago. This example, the Chapman plate coin and Newcomb piece, assuredly the second finest known, is infinitely more desirable and should command a round $1,000.00 or more. **PLATE**

1370 **1794 S–35. Hays 29.** Lot 46, Newcomb Sale, described, "Very Fine, steel brown color. One of the best known of this variety." A heavy die break from top to bottom completely bisects the obverse, accounting for the great rarity of this number. According to Sheldon's Condition Census, this is the second finest example available to collectors, with a book value of $180.00.

1371 **1794 S–41. Hays 19.** Lot 36, Newcomb Sale, described: "Extremely Fine. Lustrous light brown. Pictured in Chapman." This is the EF–40 piece of Sheldon's Condition Census and the finest in collectors' hands, since the only superior example is forever impounded in the American Numismatic Society. Book value $300.00 but should go closer to twice that figure.

1372 **1794 S–42. Hays 20.** FINE–15. Glossy grayish black, nicely centered, rare variety. Book value $60.00.

1373 **1794 S–43. Hays 34.** ABOUT UNCIRCULATED–50. Lot 1647, Dr. French Collection. Handsome lustrous steel black, strong strike, a few tiny pits opposite the features. Well up in the Condition Census and should far exceed its rather unrealistic book value of $150.00. **PLATE**

1374 **1794 S–44. Hays 33.** EXTREMELY FINE–45. Warmly iridescent reddish brown, well struck and centered, very slightly porous surfaces. One of the top half dozen of the variety and easily a $100.00 Cent.

1375 **1794 S–46. Hays 48.** Lot 64, Newcomb Sale, described: "Extremely Fine, dark brown.... several die cracks on obverse through date and bust.... Pictured in Chapman." What can we add except to say that this is yet another fabulous Chapman–Newcomb–Condition Census Cent, for which virtually any amount paid would be a bargain. Nearer the About Uncirculated grade than the EF grade. **PLATE**

1376 **1794 S–47. Hays 6.** Lot 22, Newcomb Sale, described: "Extremely Fine, dark brown. Deep even impression, fine surface. Scarce variety, rare condition. Pictured in Chapman." The Clapp–ANS specimen, forever unavailable to collectors, is the only one that exceeds this lovely Hays 6. As the Chapman plate coin, Newcomb piece and best available example of the variety, it should hit the $500.00 mark.

1377 **1794 S–48. Hays 8.** Lot 24, Newcomb Sale, described: "Fine obverse, Very Good reverse. The border on reverse is not quite complete, but about 75 of the minute stars show. Medium brown color and entirely free of defects other than wear. Excessively rare variety, and far superior to specimens usually obtainable". This beautifully balanced specimen of the renowned Starred Reverse (which Sheldon says collectors mention with "religious awe") should induce brisk bidding. An inferior example was offered at $295.00 in the recent price list of a well-known numismatic firm.

1378 **1794 S–49. Hays 7.** EXTREMELY FINE – 40. A lovely, faintly iridescent brown steel, one of the top coins of the variety. Very sharp strike, on the characteristic thick planchet of a Hays 7, from the scarce perfect obverse die. Several vertical gashes on cheek and neck and a curving scratch behind lower curls. Sold for $50.00 by Macallister about a quarter of a century ago and now worth twice that.

1379 **1794 S–57. Hays 14.** Lot 31, Newcomb Sale, described: "Ex. Fine, dark brown almost black. Die shows the usual parallel lines from face to border". Nice specimen of the Pyramidal Head, worth $75.00 or so.

1380 **1794 S–60. Hays 35.** EXTREMELY FINE–40. Medium brown steel, slight handling marks, but still among the first three or four of the variety. The Dupont specimen, practically identical, brought $260.00 in 1954. A Hays 35 in this condition is a great numismatic prize and we look for it to exceed $300.00.

1381 **1794 S–61. Hays 36.** MINT STATE – 65. Blazing Uncirculated red toning to golden brown. A Cent of breathtaking and incredible beauty, with flawless, mirror-like surfaces as sharp as when they left the dies one hundred and sixty-six years ago. Head and shoulders above any other known specimen of the variety and unquestionably one of the finest 1794 Cents extant. From Macallister in the long ago as "Unexcelled", we would substitute "Unmatched". Sure to bring its full book value of $780.00 and possibly much more. **PLATE**

1382 **1794 S–63. Hays 32.** EXTREMELY FINE–45. The Fallen 4 Variety. Handsome glossy chestnut brown toning to a rich dark chocolate on the left obverse. Common in the lower grades but rare in EF, and this specimen is tied for fifth finest, according to Sheldon's Condition Census. From a Mehl Sale in 1937 and worth $100.00 today.

1383 **1794 S–67. Hays 54.** VERY FINE–35. Head of 1795. Mottled in several hues of brown, black and blue, with possibly some artificial color applied. Still a pleasing Cent and close to the Condition Census with a book value of $70.00.

1384 **1794 S–68. Hays 55.** The Bisecting Die Break. Lot 70, Newcomb Sale, described: "Extremely Fine, very close to Uncirculated. A pin-point nick in obverse field and a few specks of erosion on reverse are its only defects. Sharp even impression and certainly one of the best known of this rarity". This is one of the four or five"excellent examples between 55 and 35" mentioned by Dr. Sheldon. If we call it EF-40 (and that is conservative) it rates as the fourth finest known, with a book value of $300.00. **PLATE**

1385 **1794 S–70. Hays 51.** EXTREMELY FINE–45. A lovely lustrous light walnut, sharply and cleanly struck, excellent surfaces. The die break through TY downward past back of eye and to cheek is as far advanced as we have ever seen it. Condition Census example, equal to the fourth finest of the variety. Book value just over $100.00 and certainly worth half again as much. **PLATE**

1386 **1795 S–76b.** Plain Edge. VERY FINE–30, though purchased from Macallister as Extremely Fine. Glossy medium chocolate, obverse rim dent behind hair. Still quite a nice cent and should easily bring $25.00.

1387 **1795 S–78.** Plain Edge. EXTREMELY FINE–45. A beautiful variety, the dies excellently done, and often available in the higher grades. Here is a prime example–a soft honey-hued golden brown, fine surfaces, a perfect Cent for its condition level. Book value only $45.00 but in great demand among type collectors and should go closer to $100.00. **PLATE**

1388 **1796 S–91.** VERY FINE–35. Liberty Cap. Nicely toned deep olive brown, early state of the dies, a very handsome Cent and ideal type coin. Surfaces slightly porous but still almost Extremely Fine. Book value around $125.00.

1389 **1796 S–104.** EXTREMELY FINE–40. Draped Bust, the famed "LIHERTY" obverse. Appealing medium brown steel, strongly struck, excellent surfaces, the very archetype of Extremely Fine. Type coin in enormous demand, and this specimen, equal to the fourth finest known, should easily bring its book value of $240.00. It was bought many years ago from Macallister at $100.00 and probably is the Newcomb piece, as only in the Newcomb Sale, (1945), has a similar specimen sold at auction in recent years. **PLATE**

1390 **1796 S–115.** FINE–15. Gray steel, rather unevenly struck and with the wear to be expected of the grade. A well-balanced Cent, nevertheless, and commanding a book value of around $100.00 as a Condition Census example of an intermediate rarity.

1391 **1796 S–119.** MINT STATE–60. Perfectly toned golden brown, rather sharper than some of its Nichols Find brethren but showing many small characteristic keg dents–including one very deep one at the rim on lower right obverse. Most recent auction record for a similar specimen was $360.00 in April, 1960. **PLATE**

1392 **1797 S–126.** ABOUT UNCIRCULATED–55. Dull medium brown, complete borders, the obverse more strongly struck than the reverse, or seemingly so. A few spots of corrosion at the date and in UNIT, possibly removable. From Macallister as "Uncirculated" but we would not grade it quite that. Still Condition Census and equal to third finest known. Book value about $125.00. **PLATE**

1393 **1797 S–128.** VERY FINE–35. Medium grayish black, sharp strike, a few small edge dents. Common variety but rare in EF, and this specimen just makes the Condition Census, figuring out to a book value of $64.00.

1394 **1797 S–129.** FINE–15. Lot 149, Newcomb Sale, where it was described as "Very Fine, dark brown." This must be the Fine–12 piece in Sheldon's Condition Census, but it is certainly better than that. At any rate, this is the third finest known specimen of a Rarity 7, commanding a book value of $225.00, and well worth it. Not in Downing, Dupont, Clarke, Sloss Sales or in any of the "big name" collections of recent years. The best S–129 is in A.N.S., so this is the second finest available.

1395 **1797 S–133.** VERY FINE–25. Stemless Wreath. Medium brown, quite sharp, but many small pit marks on the obverse and a corroded area at center of reverse. Extremely rare, this is a Rarity 6 and not the commonly encountered Stemless Wreath, and still the second finest known specimen according to the Condition Census. Superior to any specimen sold at public auction since the two Newcomb pieces. Book value $250.00.

1396 **1797 S–135.** MINT STATE–65. What can we say except that here is another of the Brilliant Uncirculated, mirror-surfaced, needle sharp Nichols Find Cents of the year. Fiery mint red with subtle coruscations of golden brown, blue and pale olive. Only removed from perfection by being struck a trifle off center and bearing a long, curving keg mark–perhaps the result of a jealous nudge from one of its less eye-catching brethren–from L of LIBERTY down to a point midway across the hair. Last Sale record for an Uncirculated (but inferior) specimen of the variety was $325.00 in April, 1960. **PLATE**

1397 **1797 S–138.** MINT STATE–65. Lot 166, Newcomb Sale, described as: "Uncirculated, original red and steel brown color. Gem Cent having deep even border on both sides. Every letter on reverse struck up, which is unusual. Extremely rare in this condition." Equal to second finest known and should bring three times the $90.00 it realized when last sold fifteen years ago. **PLATE**

1398 **1797 S–141.** FINE–15. Lot, 173, Newcomb Sale, where described as "Very Fine, almost black." We do not agree as to the Very Fine grade, the more so since this Cent has rather rough (though not unpleasing) surfaces. However, it is equal to the fourth finest known and has a Condition Census book value of $90.00.

1399 **1798 S–148.** ABOUT UNCIRCULATED–50. Large, Close Date. Horned 9 Variety. Our research has uncovered an interesting conjecture anent this lot. It was purchased on 6/25/46 from dealer James Kelly for $75.00. Yet it corresponds generally to the description of Lot 188 in the Newcomb Sale, a year previous, viz.: "Uncirculated, light brown .... double profile." Lot 188 went for $70.00, so this beautiful Cent (which is not quite Uncirculated, in our conservative opinion) may only have appreciated $5.00 in one year. Today, as the fourth finest of the variety, it is worth double its last selling price. **PLATE**

1400 **1798 S–152.** EXTREMELY FINE–45. Overdate. Lot 193, Newcomb Sale, described as: "Extremely Fine, nearly Uncirculated, Dark brown. Not perfectly centered on obverse so that there is deep milling under date and more over head. Ex. rare in this condition. Pictured in Clapp." An Extremely Fine–40 specimen sold in our Straus Sale last year at $330.00. This S–152, in superior condition and with its unequalled pedigree, should relatively bring $500.00. **PLATE**

1401 **1798 S–153.** EXTREMELY FINE–45. Large Wide Date. Lot 196, Newcomb Sale, where described: "Uncirculated, dark brown with traces of red on reverse. Very rare condition. Pictured in Clapp." This Cent is by no stretch of the imagination anywhere near Uncirculated, nor is there the faintest vestige of mint red on the reverse. However, is it pictured in Clapp, right enough (obverse only), so we must conclude it was overdescribed by dealer Macallister. It is still the third finest known, with a book value of $180.00 and should bring at least that because it is a type coin as well.

1402 **1798 S–157.** EXTREMELY FINE–40. Small, Close Date. Medium brown olive, faintly lustrous. Early state of the dies and almost Condition Census. Ex Macallister and worth about $50.00.

1403 **1798 S–161.** ABOUT UNCIRCULATED–50. Small, Wide Date. Lot 220, Newcomb Sale, described as: "Uncirculated. Original color and surface shading to golden brown. Tiny dent on edge over LIBERTY." The edge dent appears to be a planchet defect; and this is a lovely Cent, near Condition Census, though not in the Mint State Class. Worth $75.00 or so. **PLATE**

1404 **1798 S–164.** VERY FINE–30. Last appearance of the Style 1 hair. Supposedly Lot 227, Newcomb Sale, described: "Extremely Fine, lustrous brown. Reverse pictured in Clapp." However, this does not seem to be the same coin. The colors range through mottled yellow, brown and black; many scratches (in addition to the characteristic obverse die–scalings which **look** like scratches) appear on each side; extensive tooling marks deface both fields; and the reverse is definitely **not** pictured in Clapp–Newcomb's book on 1798 Cents. On its own merits, however, this is still a cent of some stature, in the Condition Census, with a book value of over $100.00.

1405 **1798 S–166.** EXTREMELY FINE–45. Whisker Variety. Lustrous olive steel, faint traces of mint red on reverse. Equal to sixth finest known and worth about $50.00.

1406 **1798 S–170.** VERY FINE–35. Lot 238, Newcomb Sale, over-described as "Extremely Fine, dark brown." Curving arc-like die break from rim to rim of left obverse and within this the die is sinking. S–170 is rare, especially in the upper grades. This example, equal to the fourth finest, has a book value of just over $100.00.

1407 **1798 S–172.** EXTREMELY FINE–45. Light golden brown, almost in the AU Class but with a fairly serious gash atop the nose and a couple of incipient corrosion spots. Just makes the Condition Census and is certainly worth its book value of $67.50.

1408 **1798 S–173.** EXTREMELY FINE–45. Dark Brown, richly lustrous. Of AU sharpness but downgraded because of a few handling marks and a bad corrosion area at STATES. Sharpest example of the variety to be sold since the AU–50 Brand–Hines–Downing–Smith piece, that fetched a then thumping $30.00 back in 1952. This piece, though inferior, should bring at least double.

1409 **1798 S–174.** EXTREMELY FINE–40. Medium brown steel, a few flecks of faded mint color on the obverse. From Macallister as "Unc., but lightly eroded." The erosion is extensive but does not diminish the sharpness of this Cent. Fifth finest known, book value $60.00.

1410 **1798 S–174.** VERY FINE–25. Another, light brown, from a somewhat later state of the dies showing deep reverse incusations. Worth $25.00.

1411 **1798 S–177.** FINE–15. Dull gray steel, advanced state of the obverse die with many diverging breaks through date and bust. Of great rarity in any condition and this specimen equal to the sixth finest. Lot 251, Newcomb Sale, and the reverse is pictured on the Clapp–Newcomb plate of 1798 Cents. A Very Fine S–177 "slept" at $80.00 in an April, 1960 auction, as indicated by the $78.75 book value of this piece.

1412 **1798 S–179.** EXTREMELY FINE–45. High 98 Variety. Light golden brown toning to chocolate. A few small scratches here and there, the most noticeable through first A of AMERICA. Book value $45.00.

1413 **1798 S–184.** ABOUT UNCIRCULATED–50. Medium, faintly lustrous brown steel. Uncommonly nice and surely a $75.00 Cent.

1414 **1798 S–187.** MINT STATE–60. Lot 269, Newcomb Sale, described, "Uncirculated. Original color on both sides is shading to golden brown. Long die break in obverse field." A beautiful Cent that brought $55.00 fifteen years ago and is worth three times that today. **PLATE**

1415 **1799 S–189.** VERY FINE–35. Glittering brown and blue steel, very sharply struck for a Cent of the year, strong LIBERTY and the bottoms of both nines clearly visible. The surfaces are very pleasing to the eye though slightly porous under a glass. Remarkably free of wear and handling defects, and unquestionably would be termed Extremely Fine in most quarters. Sold by Macallister to Mr. Holmes as such, in fact; his original envelope reads: "Ex. Fine–only 2 finer specimens known." From the Parmelee (1876) and Hall–Brand Collections. Certainly one of the top 1799 Cents that will ever by offered; definitely superior to the famous Abbey Cent, which was last sold privately for $1,100.00 in 1952; and as sharp as the Hines–Downing–Smith VF–30 to 35 piece. The fabulous Hines "King of Cents", the only 1799 perfect date which far outstrips this one, was sold at public auction for $10,500.00 in October, 1959 on an $8,000.00 estimate. We believe Mr. Holmes' piece should bring a minimum of $2,000.00 and under runaway condition, might double that figure. **PLATE**

1416 **1800 S–196.** EXTREMELY FINE–40. Overdate. Lustrous deep chocolate, strongly struck and well-centered. Somewhat, though not seriously impaired by many small scratches at LIBERTY and planchet imperfections on the reverse rim. One of the top six of the variety, nevertheless, and should exceed its $60.00 book value. Ex Macallister.

1417 **1800 S–205.** ABOUT UNCIRCULATED – 50. Perfect Date. Lot 296, Newcomb Sale, described by Macallister: "Uncirculated, original red shading to steel color. Beautiful Cent and very rare." This is a superb and rare Cent, equal to the fifth finest known and we cannot blame the old-time dealer for exaggerating. Book value $262.50. **PLATE**

1418 **1801 S–213.** EXTREMELY FINE – 45. Normal dies. Chocolate, with iridescent hues of blue, faded red and purple. This is the popular Four Wavy Cracks obverse, and that side of the coin is magnificent. The reverse shows considerable roughness and a couple of edge dinges. Still fourth finest of the variety; book value $135.00. Ex Macallister. **PLATE**

1419 **1801 S–219.** VERY FINE – 20. The renowned Three Errors. Dull black and brown steel, struck from a failing die and somewhat blurry in those portions but sharp otherwise. Porous, flaking surfaces. Not an unattractive Cent and close to the Condition Census. Book value, $60.00. Ex F. W. Geiss Collection.

1420 **1801 S–219.** VERY FINE – 30. Another, well and evenly struck, in mottled shades of brown. Several removable black spots on each side where corrosion is just starting. From the rare terminal state of the reverse die with two die breaks through the three error area. Equal to fifth finest; book value, $135.00. **PLATE**

1421 **1801 S–221.** EXTREMELY FINE – 40. Corrected Fraction. Glittering blue and purple steel, perfectly struck and centered, a true 40 – Cent. One of the prettiest Cents in the collection and finest S–221 to be sold at public auction in two decades excepting the incredible Beckwith–Holland–Helfenstein Mint State–65 example. Equal to fourth finest and easily worth its $150.00 book value. **PLATE**

1422 **1802 S–226.** MINT STATE – 65. Could well be the Newcomb piece, for it corresponds almost exactly to Macallister's description, viz.: "Uncirculated. Original red on both sides, shading to golden brown. Magnificent sharp impressions." We cannot praise this Cent too highly; in fact, we would call it Mint State – 70, were it not for a long, irregular scratch (pretty well camouflaged by the hair, however) from the field above the fillet knot, angling down through hair and drapery to rim just right of date. From Macallister as "probably unexcelled," and we will go along with that till we see a better one. Book value about $250.00 but may turn into a runaway. **PLATE**

1423 **1802 S–227.** EXTREMELY FINE – 45. The Cobweb Variety. Glossy medium brown tinged with black, well struck and centered, nice surfaces. Equal to sixth finest; book value around $70.00.

1424 **1802 S–231.** ABOUT UNCIRCULATED – 55. Stemless Wreath. Handsome olive steel, beautifully toned throughout with a blue iridescence. Lot 268, Dr. French collection, where it was touted as "Proof – the only one Known." Of course it is nothing of the kind, despite a light buffing of the obverse field to simulate a proof-like surface. But this is still a Cent of great beauty, fourth finest known and easily worth $100.00. **PLATE**

1425 **1802 S–232.** EXTREMELY FINE – 40. Dark olive steel, well struck, Obverse a bit off center. Good surfaces, some reverse roughness. Should bring around $35.00.

1426 **1802 S–233.** EXTREMELY FINE – 45. Faded golden steel, faintly lustrous. Almost in the AU Class, but with a pit on the nose, a patch of corrosion on the top hair, and a few small handling marks. Fourth finest of the variety. Book value, $90.00.

1427 **1802 S–237.** MINT STATE–65 PLUS. Lot 377, Newcomb Sale, described by Macallister as: "Uncirculated, red on both sides. Sharp, even impressions and superior to the specimen illustrated in Newcomb. Both dies lightly cracked. Gem Cent". The mint red has toned on the obverse to a dazzlingly beautiful honey and buckwheat, luminous and almost three-dimensional as hidden fires flash from its seemingly translucent depths when the coin is rotated. Considerable adhesions of golden mint bloom festoon the leaves and letters of the reverse. The surfaces are next to perfection, exhibiting for the hyper-critical only a few miniscule keg marks. Only the latter, and the fact that its color has toned from blazing mint red to what many may regard as much more beguiling hues, prevent us from according this magnificent piece the ultimate accolade of Mint State–70. It is certainly the finest S–237 extant and one of the stars of the Sale. We will not even attempt an estimate, any price paid for an early Large Cent of this caliber is a bargain. **PLATE**

1428 **1802 S–239.** VERY FINE–20. Medium brown, two prominent and roughly parallel obverse die cracks from head to right rim. An old favorite among variety collectors and worth $20.00 or so.

1429 **1802 S–240.** EXTREMELY FINE–40. Rich, well toned sepia, sharp strike, characteristic long slanting obverse die crack from rim below bust to rim opposite eye. Ex Macallister as "superior to specimen in Newcomb–ex. rare"–and it is indeed all of that. This may be the 40–coin heading Sheldon's Condition Census –so it is either the best of the variety or tied for that distinction. Book value about $125.00 but should exceed that if vied for by variety collectors. **PLATE**

1430 **1802 S–242.** EXTREMELY FINE–40. Lot 278, Dr. French Collection. Medium brown, sharp impressions, tied for sixth finest of the variety. Should exceed its $60.00 book value.

1431 **1802 S–242.** EXTREMELY FINE–40. Another, light brown with black mottlings, a few corrosion spots at the top hair, but perhaps even so a mite superior to the preceding specimen. From Elder in 1935 as "Unc."

1432 **1803 S–243.** EXTREMELY FINE–40. Stemless Wreath. Medium brown, perfect obverse die, fifth finest. Premium type coin that should go close to its book value of $120.00.

1433 **1803 S–245.** Lot 397, Newcomb, described: "Extremely Fine, nearly Uncirculated, lustrous dark brown. Pictured in Newcomb". There appears to have been a substitution, as this S–245 does not check out as the Newcomb plate coin, nor is it "nearly Uncirculated". It is, however, a nice EF–40 example of the well-known Unicorn Variety, worth about its book value of $40.00.

1434 **1803 S–247.** EXTREMELY FINE–45. The Mumps Obverse. Glittering brown and blue steel, struck so sharply that we more than a little suspect it may have been a first or a "presentation" strike. There are a few scratches around the date and bust but they do not lessen the overall appeal of this lovely cent. The variety is rare in the high grades and this specimen should better its $100.00 book value. Auction record of $600.00 in December, 1957, for a "Mint State–60." **PLATE**

1435 **1803 S–248.** VERY FINE–25. Lot 1937, Rowning Sale, 1952, where it was underdescribed as Almost VF–20. Medium brown, a very well-balanced and pleasing specimen of a real rarity. Equal to third finest known; book value about $125.00.

1436 **1803 S–249.** EXTREMELY FINE–45. Corrected Fraction. Lustrous golden brown, beautiful surfaces, a few faint keg marks. Fifth finest and should easily command its book value of $120.00 as a premium type coin. **PLATE**

1437 **1803 S–250.** EXTREMELY FINE–40. Medium, warmly toned russet brown, nice surfaces, a very appealing Cent. Book value, $60.00. As Sheldon says, this is one of the beautiful varieties of the year and an Uncirculated specimen from the Newcomb Collection sold for $600.00 to a floor bidder at the Sloss Sale in October, 1959.

1438 **1803 S–251.** MINT STATE–60. The only truly Uncirculated specimen of this variety to be sold at auction in recent years. Lot 414, Newcomb Sale, where described: "Uncirculated, original red shading to steel brown color. Reverse die cracked across. Pictured in Newcomb". An AU–50 example (described as Mint State) brought $215.00 in an April, 1960 Auction; tied for third finest of the variety but unmatched in pedigree and numismatic significance, this beauty should shatter all records. **PLATE**

1439 **1803 S–254.** EXTREMELY FINE–45. Glossy deep chocolate with reddish and olive overtones, another well struck, nice–appearing Cent. May go as a sleeper, for the variety is common in all grades. From Elder in 1935 at $18.00 and worth twice that now.

1440 **1803 S–255.** MINT STATE–60. Golden brown steel, the obverse pleasantly tinted with "autumn" patches of faded red, blue and purple. Ex Macallister, who certainly had a pipe line to the finest Cents. Equal to third finest of the variety and worth a good three figure price. **PLATE**

1441 **1803 S–257.** ABOUT UNCIRCULATED–55. Large Fraction. The merest "cabinet friction" separates this lovely golden brown cent from the mint state class, as far as wear and striking are concerned. However, the reverse planchet is defective on the bottom rim and both rims have been barely clipped by a double strike just over IB, where the denticles of the second impression are clearly seen over the first. A few perhaps removable carbon spots. Lot 321, Dr. French Collection, where it fetched $85.00. Should double that today, as equal to third finest of the variety. **PLATE**

1442 **1803 S–258.** MINT STATE–60. Golden brown toning from original red, considerable faded mint lustre. A typical Uncirculated S–258, usual state of obverse die with arc–like crack from left rim through hair and date. Not uncommon, even in this condition, but always contested for by date and type collectors. Auction record of $250.00 for a similar specimen in December, 1957. **PLATE**

1443 **1803 S–259.** VERY FINE–30. Lot 441, Newcomb Sale. This is the famous "Ghost 3" obverse, one of the great rarities of the year and supremely rare in this condition. This is a very well–preserved dark grayish brown specimen, clearly fourth best known according to its Condition Census. As such, it has book value of $90.00 and is more than  worth that to the specialist.

1444 **1803 S–260.** MINT STATE–65. Coruscating golden brown gem with half–hidden hues of purple, blue and faded mint red. Magnificent strike on a mirror–like planchet; quite equal to the Sloss piece, which brought a record $475.00 floor bid last October on a $200.00 estimate. Almost a perfect match for the preceding S–237. **PLATE**

1445 **1803 S–260.** ABOUT UNCIRCULATED–50. Another, glossy well–toned chocolate, well struck, clean attractive surfaces. Tied for fifth finest, book value, $75.00.

1446 **1803 S–260.** EXTREMELY FINE–40. A third, faintly lustrous golden brown and blue, of AU–50 sharpness but deeply scratched across the hair and cheek and in front of the forehead. Book value, $40.00.

1447 **1803 S–262.** VERY FINE–30. Lot 446, Newcomb Sale. Dull gray–black nicely struck and centered. Save for a gash through Y, remarkably free from defects and has almost the appearance of Extremely Fine. Not far from Rarity 7 and the second rarest variety of the year. Cent fanciers will attest to its extraordinary elusiveness in any condition. This S–262 is fourth finest known and has a book value of $135.00.

1448 **1804 S–266.** VERY FINE–20. Medium brown steel, faintly lustrous, nice surfaces. The best example of the perfect dies we have seen since a VF–35 specimen was emancipated from the Hall–Brand hoard almost a decade ago. This is an exceptionally clean, well–balanced Cent with no defects, and we feel we may have graded it a little too conservatively. Certainly worth well in excess of its book value of $200.00.

1449 **1804 S–266.** VERY FINE–35. Broken Dies. Glossy black steel, very strong strike, a few small pits and handling marks. Extremely Fine–40 in almost every aspect and purchased by Mr. Holmes as that grade with the notation "Probably not excelled by half a dozen specimens." A similar specimen in the Sloss Sale last October fetched $850.00 on an $800.00 estimate. **PLATE**

1450 **1804 Restrike.** MINT STATE–60. No mint red, but an Uncirculated light brown, as nice as these misbegotten monstrosities usually come. Not worth over $25.00 but generally sells for more.

1451 **1805 S–267.** EXTREMELY FINE–45. Blunt 1. Glossy chestnut, the reverse a beautiful iridescent rose steel. A few light scratches have merged into the patination so as to be practically invisible. Just below the top six of the variety and worth $75.00.

1452 **1805 S–267.** EXTREMELY FINE–40. Rich chocolate, but abraded around the rim so the bright original copper shows through. Of AU sharpness and would merit that grade with the color wholly restored. Worth $50.00 so.

1453 **1805 S–269.** VERY FINE–30. Pointed 1. Dark olive steel, glossy, attractive surfaces. Worth $40.00 as a type coin. Ex W. W. Neil Collection.

1454 **1806 S–270.** EXTREMELY FINE–45. Iridescent brown and blue steel with faded reds, pinks and yellows showing through. A beautiful Cent of the year. Recent auction record of $140.00 for a similar specimen.

1455 **1806 S–270.** VERY FINE–30. Light brown, well struck but scratched through ear and hair. Still a pretty Cent, worth $60.00 or so.

1456 **1807 S–273.** ABOUT UNCIRCULATED–50. Large Overdate. Iridescent, deeply toned olive steel, unusally strong and even strike (this variety often comes struck weakly on right obverse and left reverse), clean, unmarred surfaces. Reverse rim broken over ST–this die state evidently not so rare as was first thought. Equal to fourth finest known and almost on a par with Hines-Clarke-Sloss piece which brought $260.00 last Fall. **PLATE**

1457 **1807 S–276.** EXTREMELY FINE–45. Perfect Date, Upset Reverse. Nicely toned medium brown, good strike, an apparent planchet defect or rim failure over LIB and a few light scratches just under. Hard to find in this condition and worth about $75.00. Ex Macallister.

1458 **1807 S–276.** EXTREMELY FINE–40. Another, almost as sharp and just the same color, the reverse upset in a different position. A couple of light scratches before the forehead but still quite desirable. The notation on the original "pill box" containing this cent reads: "Was Dr. Hall's. Presented to me by V. M. Brand, Oct. 1909". Bought at a Mehl Sale in 1938 for $17.50 and worth three times that today.

1459 **1808 S–279.** ABOUT UNCIRCULATED–50. Turban Head. Handsome golden brown, considerable faded mint lustre, clean, smooth surfaces. Struck a bit off center and more heavily on the left portion of the coin, hence the left stars show all radial lines while the right are flat. Ex Macallister as "Unc."; actually equal to fifth finest. Book value about $125.00. **PLATE**

1460 **1808 S–279.** EXTREMELY FINE–40. Another, similar in every way to the preceding except for the grade. From a Morgenthau Sale in 1927. A Very Fine example sold for $76.00 in an April, 1960 Auction.

1461 **1809 S–280.** VERY FINE–35. Medium brown, clean and well struck, early state of the dies. From Wayte Raymond years ago for $25.00; worth three times that today.

1462 **1810 S–281.** EXTREMELY FINE–45. Overdate. Rich walnut, tinted with red, yellow and black. Several tiny pits on the reverse need attention. A nice Cent, just in the Condition Census, with a book value of about $70.00.

1463 **1810 S–282.** ABOUT UNCIRCULATED–50. Lustrous golden brown, excellent surfaces, an ideal mate for the AU–50, S–279 above. Rare in top condition. This specimen equal to fourth finest. No recent sale records for an equivalent piece, but should bring over $100.00. **PLATE**

1464 **1810 S–282.** VERY FINE–25. Another, glossy black, sharp but on an excessively porous planchet, hence downgraded. Worth about $30.00 so.

1465 **1811 S–286.** EXTREMELY FINE–45. Overdate. Glittering pale blue and yellow steel, a lovely Cent, one of the top six of the variety. From a 1936 Mehl Sale as "Pract. Unc.". Very rare in this condition and may exceed its book value of $100.00. **PLATE**

1466 **1811 S–287.** EXTREMELY FINE–40. Perfect Date. Olive brown, bluish black tonings on the reverse. As nice an 1811 as can be found outside the top brackets, and worth a bid near three figures.

1467 **1812 S–288.** MINT STATE–60. Large Date. Beautiful light chocolate, faintly iridescent. Exquisite satin-like surfaces, a few flecks of golden mint bloom surviving on the reverse. A genuine aristocrat, equal to the finest known examples of the variety; well worth any price. **PLATE**

1468 **1812 S–289.** EXTREMELY FINE–40. Large Date. Medium brown steel, strong strike, stars full. Excellent type coin in unusually nice condition. Worth about $40.00.

1469 **1812 S–290.** ABOUT UNCIRCULATED–55. Small Date. Light purple and brown steel, delicately mottled with black. The veriest shade under Mint State, but there is some wear on the highest surfaces. Color, striking and surface are all superb and not more can well be demanded in an early Cent. Should bring $75.00 or more. **PLATE**

1470 **1812 S–291.** Of Extremely Fine sharpness, but the hair and centers of stars have been extensively and crudely retooled. Recolored to a not unprepossessing tawny orange. Ex Bolender in the mid-thirties.

1471 **1813 S–292.** MINT STATE–60. Distant Star Variety. A perfect mate in color and condition to the preceding S–288, and sharper struck. Despite the high Condition Census for both varieties of 1813, a genuinely Uncirculated specimen of this year almost never seems to come on the market. This Cent is tied for second finest known, with a book value around $135.00. However, we believe this figure is unrealistic. This is a seldom presented opportunity, as any experienced Cent collector will readily concede and the bidding for such a superlative S–292 should smash all records. **PLATE**

1472 **1814 S–294.** EXTREMELY FINE–40. Crosslet 4. Attractive medium brown steel; clean, naturally glossy surfaces. Perfectly struck and centered; excellent type coin. Ex Elder in 1935. Worth $50.00 today.

1473 **1814 S–295.** ABOUT UNCIRCULATED–50. Plain 4. Strong, even impression, slightly off center but with full border beading. Beautiful, mirror-like planchet, richly toned in several shades of ochre and russet. Early state of obverse die with breaks just appearing. Type coin and last of the early Cents. Worth $75.00. **PLATE**

1474 **1816 N–2.** MINT STATE–60. Coronet Head. Obverse mostly mint red, reverse medium brown. Frequently seen in this condition, now selling around the $35.00 level. Ex Bolender.

1475 **1816 N–2.** MINT STATE–60. Another, pale mint red, nicely toned. Ex Mehl.

1476 **1816 N–4.** EXTREMELY FINE–40. Lustrous light chocolate, black mottlings. Scarce variety. Auction record $48.00 for a mint state specimen. Ex Mehl.

1477 **1816 N–6.** MINT STATE–60. Faded mint red, some lustre. Rare so.

1478 **1817 N–3.** EXTREMELY FINE–45. Nicely toned grayish black; bold, clear impression.

1479 **1817 N-2.** MINT STATE-60. Close Date. Mint red toning to light brown, corrosion pits developing on obverse. Rare in this condition; auction record of $30.00 so.

1480 **1817 N-3½.** MINT STATE-60. Golden brown veined with black. Lot 385, Dr. French Collection, where it sold for $25.00 over thirty years ago.

1481 **1817 N-6.** MINT STATE-65. Mint lustre suffused into rainbow hues, but many tiny corrosion pits invading the obverse. The Clarke specimen, a gem, sold for $27.50.

1482 **1817 N-8.** MINT STATE-60. Reddish brown, faintly lustrous. The Clarke piece, more brilliant brought $22.50. Ex Elder in 1935.

1483 **1817 N-11.** MINT STATE-65. Wide Date. Iridescent pale golden steel, very sharp. Ex Wayte Raymond.

1484 **1817 N-14.** MINT STATE-65. Blazing mint red, a couple of fingerprints smudging the obverse field. Randall Find specimen, now worth about $25.00.

1485 **1817 N-15.** VERY FINE-20. Glossy gray steel. Very rare variety with record of $32.00 in Uncirculated. Ex Hines-Downing.

1486 **1817 N-16.** ABOUT UNCIRCULATED-50. Fifteen Stars. A pleasing mixture of mahogany, magenta and russet; bold strike, nice surfaces. This variety is booming in popularity, as evidenced by the fantastic $115.00 recorded for an MS-65 specimen at the Sloss Sale last October. **PLATE**

1487 **1818 N-6.** ABOUT UNCIRCULATED-55. Attractive golden brown. Ex Dr. French Collection. Auction record of $35.00 in Uncirculated.

1488 **1818 N-6.** EXTREMELY FINE-40. Another, same color.

1489 **1818 N-6.** EXTREMELY FINE-40. A third, gray steel and olive.

1490 **1818 N-7.** MINT STATE-60. Obverse mint red, small planchet clip at fourth star; reverse medium brown. Lot 405, Dr. French Collection. Rare condition.

1491 **1818 N-7.** EXTREMELY FINE-40. Another, medium brown.

1492 **1818 N-8.** EXTREMELY FINE-45. Lustrous chocolate, mottled with ochre. Rare variety, with a $22.00 record in mint state.

1493 **1818 N-10.** MINT STATE-65. Blazing mint red, toning to orange. Randall Find and about as nice as they generally come. Record of $24.00 for the Breen-Landau gem.

1494 **1819 N-1.** EXTREMELY FINE-45. Overdate. Brown steel, the obverse with a faint blue iridescence. Sloss' MS-60 brought $45.00.

1495 **1819 N-2.** EXTREMELY FINE-40. Large Date. Medium olive steel, nice type coin.

1496 **1819 N-8.** MINT STATE-70. Small Date. Blazing mint red, a few bag marks and a small carbon discoloration at rim under date. Still our idea of absolute perfection and we flatly refuse to grade it otherwise. Gems of this variety have soared as high as $35.00 but we believe this Cent is in a class by itself and would be a bargain at $50.00. **PLATE**

1497 **1819 N-8.** MINT STATE-60. Another, gleaming olive steel with faded rose and ochre patches. Beautiful in its own right though outshone by the preceding lot.

1498 **1820 N-1.** VERY FINE-30. Overdate. Dark olive brown, natural gloss. Popular type coin.

1499 **1820 N-7.** EXTREMELY FINE-40. Large Date. Dark olive black, scarce variety.

1500 **1820 N-8** MINT STATE-65. Small Date. Light brown steel, delicately suffused with faded mint lustre. Rare in mint state and this may be the finest known. An AU-55 example brought $35.00 at a December, 1957 auction.

1501 **1820 N-12.** MINT STATE-60. Mostly mint red but pleasingly tinted with green, purple and blue. Rare in Uncirculated; auction record of $26.00. Ex Wayte Raymond.

1502 **1820 N-12** ABOUT UNCIRCULATED-50. Another, beautifully blended pink and purple, sharper than the last. Some pitted areas on obverse, however.

1503 **1820 N–13.** MINT STATE–70. Brilliant, dazzling mint red, as undimmed as when it left the dies. Tiny planchet clip between sixth and seventh stars and the inevitable few small keg abrasions and carbon spots. A superb, selected Randall Find gem, nevertheless, as fine as we have seen. The Sloss MS–70 sold for $31.00. Ex Mehl. **PLATE**

1504 **1820 N–15.** MINT STATE–60. Mostly mint red. Rare variety with a $40.00 Unc. record at private sale.

1505 **1820 N–15.** MINT STATE–60. Another, light reddish brown, vestiges of mint lustre.

1506 **1821 N–1** ABOUT UNCIRCULATED–50. Close Date. Light yellow brown, tinged with black around stars and legend. Sharp, perfectly centered strike, full border beading. The similar Brand–Gaskill piece went for a thumping $135.00 over two years ago. Very rare in this condition. **PLATE**

1507 **1821 N–2.** EXTREMELY FINE–45. Wide Date. Nicely toned medium brown steel, shading to black here and there. Scratched around ONE CENT; a fairly serious rim dent at tenth star. Still a handsome Cent and worth about a dollar a point according to auction records over the last ten years.

1508 **1822 N–1** ABOUT UNCIRCULATED–55. Close Date. Iridescent blue, brown and rose steel, the first three stars faint but otherwise sharp. Rare variety; auction record of $62.50 last April for a similar specimen.

1516 **1823 N–2** EXTREMELY FINE–40. Perfect Date. Medium glossy chestnut, rim just beginning to break over fifth and sixth stars. A few small nicks and handling marks but well struck and very attractive overall. A specimen no better realized $325.00 at auction in April, 1960. Ex Wayte Raymond. **PLATE**

1517 **1823 Restrike.** MINT STATE–60. Blazing red toning to orange, very late state of the obverse die. Auction record of $34.00 for a similar specimen. This century-old venture in chicanery now is really paying off!

1518 **1824 N–2.** ABOUT UNCIRCULATED–55. Close Date. Beautiful lustrous golden olive, faint remnants of mint bloom. The inferior Sloss piece brought $60.00.

1519 **1824 N–3.** ABOUT UNCIRCULATED–50. Wide Date. Glossy russet olive, flecks of yellow on the reverse. The similar Sloss piece "slept" at $37.50 on a $70.00 estimate.

1520 **1824 N–4.** EXTREMELY FINE–40. Wide Date. Gray olive steel with reddish tints. Ex Macallister.

1521 **1825 N–6.** VERY FINE–20. Small A's in Legend. Dull gray black, some obverse corrosion. Could be improved.

1522 **1825 N–7.** EXTREMELY FINE–40. Large A's in Legend. Reddish brown, porous but attractive surfaces, obverse rim crumbling from sixth to eleventh stars. Scarce variety.

1586 **1838 N–4.** MINT STATE–60. Mint red toning to brown. State II of obverse die. Ex Elder in 1935.

1591 **1838 N–8.** ABOUT UNCIRCULATED–55. A third, sharpness of mint state, brown with some mint red but gashed on edge above sixth star. Also ex Macallister.

1592 **1839 N–2.** VERY FINE–35. Type of 1838. Medium olive brown.

1593 **1839 N-4.** MINT STATE-65 PLUS. Silly Head. Blazing mint red, ex Macallister from the Morgan collection as "probably unexcelled." We have seen several uncirculated examples of this variety but never one better struck or with more mint red. Such a gem should easily command $150.00 on today's soaring market. **PLATE**

1594 **1839 N-5.** MINT STATE-60. Booby Head. Soft, satin-like olive, beautifully blended with rainbow tints of blue, purple, yellow and green. A few tiny keg marks on the obverse. Ex Macallister.

1595 **1839 N-7.** MINT STATE-60. Booby Head. Much the same color as the last but without the rainbow tints. Another outstanding cent from dealer Macallister's apparently endless pipe line.

1596 **1839 N-8.** MINT STATE-65. Type of 1840. Blazing mint red, subtly toning to rose. From Beckwith and Morgan collections, via Macallister. Auction record of $65.00 for similar specimen almost three years ago. **PLATE**

1602 **1840 N-7.** MINT STATE-60. Glittering mint red toning to brown. Ex Wayte Raymond.

1603 **1841 N-1.** Blazing mint red toning to light purple, especially on the obverse. The first six stars show full radial lines while the last seven are almost completely flat. The highest surfaces are either also flatly struck or worn smooth, and the edge does not seem to be that of a proof cent. However, according to Dr. Sheldon, this variety does not appear to exist in other than proof condition, so we must conclude this specimen was a defective strike. It was purchased as a proof from Mehl in 1936, for $11.00 not a bad investment considering that the Dupont piece brought $140.00 six years ago. **PLATE**

1604 **1841 N-4.** MINT STATE-60. Deeply glowing mint red toning to brown. Ex Mehl in 1938. Very rare in this condition and should go well over its list price of $25.00.

### U.S. HALF DOLLARS

1882 **1794 First year of Issue.** H-1, B 1a Ab. A superb example of this rare coin. Extremely Fine, choice, gold and iridescent toning. While not as nice as the Empire coin, we still feel this specimen should bring $500.00. **PLATE**

1883 **1795** H-1, B 1a Ab. **Two leaf variety.** Strictly Fine and sharp. Arc-like die break on reverse.

**The Rare 1795 3 Leaf Variety**

1884 **1795** H-23, B-4H. **Three leaves under each wing.** One of the most difficult major varieties to locate. This coin is Very Fine and sharp. Tiny obverse nick near the 12th Star. This specimen is sharper than the Davis, Empire or Dupont coins, and we feel that this coin should bring $500.00 as it is probably one of the top 6 specimens in existence. **PLATE**

1885 **1795** H-5, B-5 I **Two leaf variety.** The very rare variety with "STATES" cut over "STETES". Softly struck but still **Extremely Fine** with a good deal of mint lustre. A light scratch on the cheek. A desirable coin.

1886 **1795** H-7, B-7 K **Two leaf variety.** "Liberty" over an incused "United". A planchet streak across forehead. Still one of the "finest known" of this variety. Brilliant Uncirculated, full lustre. Easily worth $250.00. **PLATE**

1887 **1795** H-8, B-8 Bd **Two leaf variety.** The variety with the triple cut "M". **Uncirculated Gem,** golden and iridescent toning. This coin is sharply struck, perfectly centered, really a choice coin. Worth $400.00. **PLATE**

1888 **1795** H-9, B-9 N. **Two leaf variety.** Another mint state specimen. This choice coin is beautifully centered, a trifle weak on the eagle's breast, a few very light planchet adjustment marks. **Uncirculated** with golden and iridescent toning. Worth $250.00 or more.

1889 **1795** H-13,B-13 S **Two leaf variety.** Nearly mint state coin. A trifle weak on the left obverse edge and correspondingly on the reverse. The eagle's breast a trifle weak. **Just a shade from Uncirculated,** some proof surface. An excessively rare variety according to Hazeltine's work, "Type Table Catalog".

1890 **1795** H-32, B-16 Pa. An **Extremely Fine** specimen of this very rare variety. Small reverse edge dent near "R". Hazeltine's coin was only poor and the only one he had seen. Worth a substantial bid.

1891 **1795 Not in Hazeltine or Beistle.** A very rare coin and in top condition. **About Uncirculated** choice, with mint lustre. Some light blue and golden toning. A unique opportunity for the Half Dollar specialist.

1892 **1801.** Purchased from Macallister in 1942 as Uncirculated. We prefer to call it **a shade away from Uncirculated.** A small nick below the "R" of Liberty. A very sharp strike and surely **one of the finest known.** Well worth a $300.00 bid. **PLATE**

### U. S. HALF DIMES

**Note:** This is the most extensive collection of Half Dimes we have ever offered at Public Auction.

2559 **1794 Valentine 1.** A sharply struck **Extremely Fine** specimen. A couple of tiny nicks in the obverse field do not mar the beauty of this little coin. The coin in the Aries Sale realized $425.00.

2560 **1794 Valentine 2. Extremely Fine.** Nice golden toning. Obviously Valentine has erred in his reverse description as Reverse 1 reads "The U of United and the last A of America touch the lowest left and right leaves respectively." The U does not touch on Valentine's #1 reverse, the A does touch. **PLATE**

2561 **1794 Valentine 3a.** A sharply struck and perfectly centered coin. **About Uncirculated,** with mint lustre. A very scarce variety. **PLATE**

2562 **1794 Valentine 4.** Strictly Very Fine. Perfectly centered, sharply struck. A premium coin for the grade.

2563 **1795 Valentine 1.** As described by Valentine, except struck from perfect dies. A very choice specimen. **Uncirculated,** blue and golden toning, some proof surface. According to the Breen Supplement, **this is one of the rarest of all varieties of 1795,** only a half dozen being extant. **PLATE**

2564 **1795 Valentine 2a.** A minute die crack bisects the coin. This coin is **Brilliant Uncirculated** and a Gem. Very light planchet adjustment marks on the lower left obverse edge.

2565 **1795 Valentine 2a.** Another magnificent specimen. **This is the Valentine plate coin** designated as V.2. **Uncirculated,** full lustre, iridescent toning. This and the preceding lot are Very Rare. **PLATE**

2566 **1795 Valentine 3. This is the Valentine plate coin,** with the very large die break on the obverse. Strictly **Uncirculated,** golden and iridescent toning. Struck on a slightly granular planchet. Extremely Rare variety. Newlin knew of only 2 and Breen only 1. This is perhaps the "finest known". **PLATE**

2567 **1795 Valentine 4a.** A prominent die break over the TY and the adjacent Star. **Brilliant Uncirculated.** A trifle softly struck on the left edge, full mint lustre. Superb. The Aires Sale specimen brought $290.00.

2568 **1795 Valentine 4a.** Amazingly enough a second specimen. **Uncirculated.** A mint state coin with planchet adjustment marks on the obverse. As choice as the preceding lot. Nice golden toning.

2569 **1795 Valentine 5a.** Die break from Y to nose. **Brilliant Uncirculated.** A trifle weak at the eye, but that is diagnostic as you can see by the next lot which has a slightly more advanced die break but is generally equal.

2570 **1795 Valentine 5b.** The state of the crack is a trifle more extended but in reality a 5a. Another **Brilliant Uncirculated,** a Gem coin. Lightly struck near eye. (See Valentine's plate coin.)

2560 2561 2563 2565 2566 2572

2574 2576 2577 2579 2581 2582

2583 2586 2587 2599 2616

2672 2674 2675 2677 2682

2694 2698

2571 **1795 Valentine 6.** The crack has now extended so that it bisects the coin and it now has a new reverse. **Extremely Fine** with mint lustre. Scarce.

2572 **1795 Valentine 7. This is the Valentine plate coin.** Large continuous die break. Strictly Very Fine and Choice. **A great rarity** and most probably **"Unique."** None are known but this single specimen. **PLATE**

2573 **1795 Valentine 8. This is the Valentine plate coin.** Die break behind head and die failure behind Eagle's head. A slightly granular planchet. This coin is **Extremely Fine** and as such quite rare. Breen lists this as a Rarity 7 coin.

2574 **1795 Valentine 9.** The obverse is a Valentine 7 without the broken dies coupled with a Valentine 2 reverse. This choice specimen also has a recut date, "Liberty" and first Star. **Just a shade from Uncirculated.** Full lustre, toned blue around the periphery of the coin. Scarce. In Breen's Supplement "only one seen," unique. **PLATE**

2575 **1795 Valentine 9.** Another same as above. It is amazing to find 2 of this very rare variety. Perhaps because of this sale it will make it a "collectable" coin. Like the preceding lot, this coin is a hair-breadth from Uncirculated. Full mint lustre.

2576 **1795 Valentine 10.** With an arc-like die crack from the edge through the fifth star, the hair, and the "R", terminating at the edge. **Uncirculated,** with some proof surface. Blue and iridescent toning. This coin is **"Unique."** Described in Breen's Supplement, "Not in Newlin; Stiegerwalt 8. None seen. R-8 if extant." **PLATE**

2577 **1796 Valentine 1.** The 1 and 6 are re-engraved. This coin is a **Specimen Striking** and has all of the indications of a Proof. Suction marks of the reverse are evident. Two tiny nicks, one in the hair and one in the ear, really do not impair its value; it is still a beauty! **PLATE**

2578 **1797 Valentine 1. The 13 Star obverse.** Very Fine and Very Scarce. Evenly struck.

2579 **1797 Valentine 2. The 15 Star obverse.** Superb. A sharp strike but weak in the centers, characteristic of this variety. **Strictly Uncirculated** with blue-gray toning. Rare. **PLATE**

2580 **1797 Valentine 3. The 16 Star obverse.** This coin is easily **Extremely Fine.** Originally purchased as About Uncirculated. Nice borders and a fairly sharp strike. Worth $275.00.

2581 **1800 Valentine 1. Perfect dies. Brilliant Uncirculated,** full lustre. The ideal type coin. Almost full borders on obverse and reverse. **PLATE**

2582 **1800 Valentine 2. The "LIBEKTY" variety. Brilliant Uncirculated,** beautiful surfaces. Slight die adjustment marks on bust and lower right obverse edge. Slightly weak correspondingly on the reverse. Worth at least the record price of our Futter Sale. **PLATE**

2583 **1801 Valentine 1.** An almost impossible coin to find above Fine. This specimen is **Nearly Uncirculated** with full mint lustre. It is weakly struck like most but certainly one of the nicest to come up for sale in the last 5 years. **PLATE**

2584 **1803 Valentine 2.** Very Fine and quite scarce. A few light hairline scratches. Low mint record.

2585 **1803 Valentine 2.** Another specimen. The obverse is Very Fine, but the reverse not quite up to that grade.

2586 **1803 Valentine 3. This is the Valentine plate coin.** Small Date. Extremely Fine and Choice. An exceedingly rare coin. Worth at least twice the large date variety. **PLATE**

2587 **1805 Valentine 1.** A most unusual and superb example of this very rare date Half Dime. Strictly **Very Fine,** sharp, and choice. Almost the equal of the Empire coin that brought $160.00. This should be worth $200.00. **PLATE**

2588 1829. A superb proof impression on the obverse. The reverse Uncirculated, with full mint lustre. A Gem!

## U.S. QUARTER DOLLARS

Coinage commenced in 1796; discontinued in 1797 and resumed in 1804. None coined in 1808 to 1814 inclusive, 1816, 1817, 1826, 1829, and 1830. Coined at Philadelphia, New Orleans, Carson City, Denver, and San Francisco mints. As a guide to value, we call your attention to the fact that all coins before 1828 are very scarce and seldom offered for sale in choice conditions to Uncirculated.

### 1796 BRILLIANT PROOF GEM

2918 **1796 First year of issue. Perfect Brilliant Proof!** A flawless gem, that could possibly be matched by one or two others offered in the last 30 years – certainly no finer can exist. Sharp, well struck with perfect milled borders and just about equal to any modern Brilliant Proof in appearance. An unusually bold impression with sharp eagle on reverse (most known "so-called" proofs have flat eagle). Delightful blue tinge of iridescence.

The only time this remarkable condition rarity is available is when such a great collection as this comes on the market. This coin, purchased in 1922 at the celebrated Ten Eyck auction sale (lot 507), has been in the Holmes collection since that time. While its rarity does not require any additional pedigree other than the fact that it comes from the Holmes collection, this information does add to its prestige and value.

The last so-called Proof offered at auction was the Donlon specimen four years ago, where it realized $1,375.00. We also know of one similar coin sold privately for $2,000.00. This is indeed a most thrilling coin to look at and there will certainly be a source of great satisfaction and pride in its ownership; — and, we dare say, not an unprofitable investment. **PLATE**

## SUPERB CONDITION 1804

2919 1804 Second year issued. Virtually perfect and certainly **one of the finest known to exist.** Originally purchased from the late B. Max Mehl in 1939 as Uncirculated; we grade it most conservatively as **Extremely Fine** since it shows faint rubbing on the hairs only. The coin has most original mint lustre still visible. Sharp, well struck (usual flat stars). Nearly every coin of this date offered for sale is only in Good to Fine condition, which should give you some idea of the rarity. It is difficult to estimate the value of this coin, but if it was in our stock we would not hesitate to price it at $1,000.00. **PLATE**

2920 1805 Very Fine, choice. Faint even wear. Scarce, desirable "type" coin.

2921 1806 Very Fine, choice, Some original mint lustre still visible. This coin is nicer than the description implies.

2922 1806 over 5. Very Fine. Some original mint lustre still visible Scarce.

## BEAUTIFUL 1807 UNCIRCULATED

2924 **1807 Brilliant Uncirculated.** It is difficult to describe the quality of this coin. Simply superb in all respects would be adequate. This specimen is "made" for either the date or type collector who wants perfection. This coin will probably realize $250.00, perhaps more. **PLATE**

### RARE 1840 PROOF

2957 **1840 Brilliant Proof**. Faint blue toning. While no accurate records exist to substantiate proofs being struck, this coin leaves no question as to its authenticity. All characteristics exist. This coin was polished at one time, which lightly hairlined its surface, but did not impair it. We estimate the value of this coin at $200.00. **PLATE**

## U.S QUARTER EAGLES ($2.50 GOLD)

### The Very Rare 1796 No Stars

3166 **1796 No Stars on the obverse.** The only year of this type. Designed by Robert Scott. We are quite fortunate in being able to offer this rare coin, along with so many of the rare early quarter eagles, including the 1808, right after selling the extensive group in our Neumoyer Sale in May of this year. This coin is almost an exact duplicate of the Neumoyer coin. **Very Fine obverse, Extremely Fine reverse.** This coin should bring the $2,400.00 the Neumoyer specimen brought. **PLATE**

3167 **1805** Very Fine, choice. A lovely example of this early Type. Worth $400.00. **PLATE**

3168 **1807** Nearly Extremely Fine. Sharp strike, with mint lustre. Worth more than the $440.00 record in the Neumoyer Sale for Very Fine. **PLATE**

3169 **1807** Very Fine, choice. Another of this very scarce coin.

### The Very Rare 1808 Quarter Eagle

3170 **1808** The only year of this interesting type designed by John Reich. Designated as the Round Cap type in the various reference books. This coin is **Extremely Fine.** Well struck and centered. The Neumoyer specimen which was a better coin realized $2,800.00 on a $2,500.00 estimate. With the great demand for early type coins we feel that this specimen should bring $2,000.00. **PLATE**

3171 **1824** About Uncirculated, choice. This type lacking in the Neumoyer Sale. Easily worth $450.00 as only 2,600 were struck. **PLATE**

3172 **1825** Brilliant Uncirculated. Proof surface. A little beauty. Another of this elusive type. Worth $500.00. **PLATE**

3173 **1829** Turban head. First year of this design. About Uncirculated proof surface. A very scarce coin. The Neumoyer coin brought $360.00. **PLATE**

3758 **1867** Extremely Fine. Only 3,100 coined. Perhaps the reason for these coins being underrated is because they are so scarce. No Auction or counter sales records are known. We feel this coin is worth $200.00. **PLATE**

### RARE 1873 $10.00 GOLD

3771 **1873** Very Fine. A very rare coin of which **only 800 were struck** for circulation. We feel that collectors who study Auction records and notice the availability of these very rare eagles will understand our estimate of $350.00. **PLATE**
3772 **1873 'CC'** Very Fine, choice. Only 4,543 were coined. A negligable figure for the way gold circulated at that period of time. Well worth $175.00.

### VERY RARE 1876 $10.00 GOLD

3776 **1876** Extremely Fine. One of the real rarities of the U. S. Gold series. Only 687 were struck for circulation, which places it **SECOND** in the quantity struck column. Only the 1875 has a lower mint record. We feel that a coin of this caliber deserves an estimate of $500.00 and even that is very low. **PLATE**
3777 **1876 'CC'** A very elusive coin. Very Fine and quite scarce. Worth $100.00 or so.
3778 **1876 'S'** Very Fine. Only 5,000 struck. Almost without exception every eagle struck between 1860 and 1877 is a rare coin and since these have been a neglected series for years the wise Numismatist will take cognizance of these low mintage figures.

## COMPLETE SET OF PANAMA-PACIFIC COINS

## OFFERED INDIVIDUALLY

The Panama Pacific Exposition was held in San Francisco, in celebration of the construction and opening of the Panama Canal from February 20th to December 4th, 1915. It was one of the largest expositions ever held in the United States and attracted world-wide attention. Forty-four states, United States Territories, and thirty-six foreign nations were represented. The coins struck in connection with the exposition were among the most interesting of the United States Commemorative issues. The set consists of two FIFTY DOLLAR coins, ROUND and OCTAGONAL in shape; a $2.50 and a $1.00 in gold. There is also a Half Dollar in silver. Most of the sets were distributed in either copper frames or plush boxes.

These were the first Fifty Dollar Gold coins to be issued under the authority of the United States government. Approximately 1,500 sets were struck, although only 483 sets were sold at the exposition. The balance of the issue was remelted. We doubt if more than half of the issue sold still exists, making it quite rare.

These are probably the most popular and sought after coins in the market today. These sets were originally sold for $200.00 back in 1915. The Neumoyer set, in original copper frame and sold at auction last May, realized $5,600.00 Seldom is it possible to purchase coins individually, and, as such, they will probably realize as much as the set. These coins are an excellent investment that certainly will never lose its value. Past history has proven this fact.

4111 **Panama-Pacific. $50.00 Round.** This is the rarer of the two varieties. **Only 483 struck.** Brilliant Uncirculated, choice, but has three barely visible nicks at edge on reverse. Worth $2,800.00 in today's market. **PLATE**

4112 **Panama-Pacific. $50.00 Octagonal. Only 645 struck** of this variety. Brilliant Uncirculated, with no visible flaws. This coin is occasionally offered by itself. We noticed one advertised for $2,500.00 in June. This specimen should be worth that today. **PLATE**

4113 **Panama-Pacific. $2.50.** Uncirculated. Currently quoted at $150.00.

4114 **Panama-Pacific. $1.00.** Uncirculated. Becoming quite scarce.
